- However it will still be possible to qualify for a free upgrade.

OWN UPGRADE DURING THE KFT PHASE

- You can upgrade multiple times yourself during the KFT phase.

Example:

Sue starts with a Bronze package and sells 1 Gold package in her first week. In the second week she upgrades to Silver and sells 3 more Gold packages in week 3 and 4. She then upgrades her package to Gold and sells 1 more Gold package by week 5. In this example, Sue will receive a free upgrade to VIP.

You must purchase your upgrade before you sell the 5th package. Otherwise the free upgrade will only apply to the level you are at when the 5th package is sold.

UPGRADES OF DOWNLINE AFFILIATES DURING THE KFT PHASE

- If your affiliates upgrade their business package during the KFT phase, your 5 week time limit will not be extended. (there are no new starts through upgrades from affiliates)
- Upgrades of your personal affiliates during your KFT phase will not count. For the KFT, you will only receive credit for the first package they originally purchased.

Example:

Sue starts with a Silver package and sells 1 Silver package in the 1st week. That affiliate decides to upgrade to a Gold package the next week. The upgrade does not count towards your 5 as the sale was counted already as a Silver. Simply put, packages are counted for your KFT phase on the initial business package purchase, not upgrades.
